

Quick Set Up Guide

Installation & Registration

Optional but Recommended

Set up backups

Enable encryption

Remove existing passwords

Install & Open Conseel

Register @ email or google ID

Main set up and personalization

1 Set your lock screen PIN first. This is your regular login PIN.

2 Set your TRAPDOOR PIN. When this PIN is used to unlock your phone, Conseel will delete your preset data!

3 Enable Phone Lock to use protect your info. Otherwise, Conseel will not recognize your TRAPDOOR.

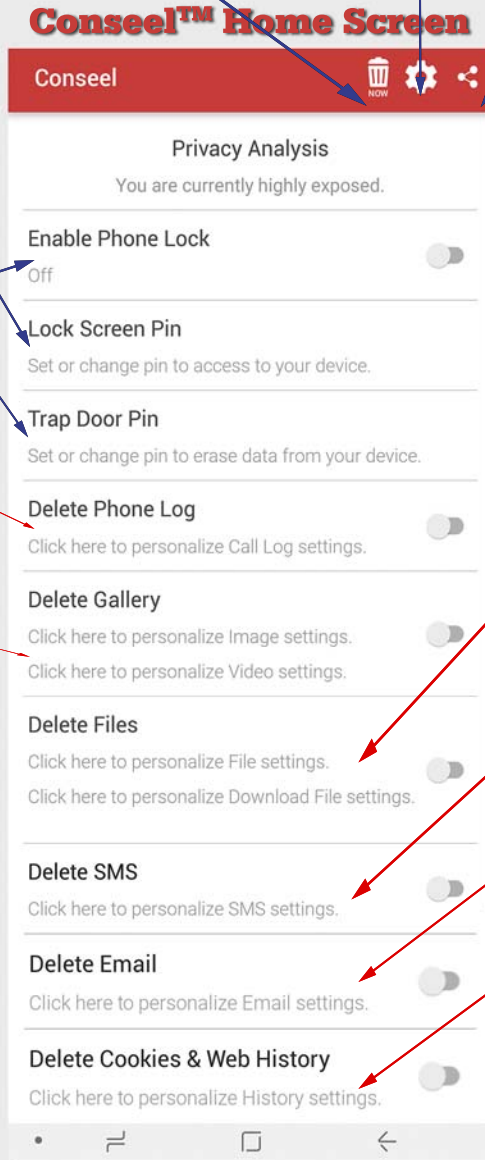

4 Click on Delete Phone Log to set your preferences such as date, type of calls to delete and from whom. Toggle ON!

5 Click on Delete Gallery followed by either Images or Videos to set your preferences such as date, album and location for images. Toggle ON!

Delete your info immediately

Settings: change Conseel account password, logout

Share Conseel with your friends

6 Click on Delete Files followed by either My files or Downloads to set your preferences such as date and folders. Toggle ON!

7 Click on SMS* to set your preferences such as date, contact and groups. Toggle ON!

8 Click on Email* to set your preferences such as date, contact and keywords. Toggle ON!

9 Click on Web History^^ to set your preferences such as date and type of info to delete. Toggle ON!

You're protected! Share your phone

Keep calm and have comfort in sharing your phone with others
